COMPANY OVERVIEW

Griffith Company is one of California's oldest and most respected heavy civil and transportation infrastructure contractors. We play a vital role in building and improving infrastructure that powers communities throughout California & the Western United States.

We deliver a diverse range of infrastructure projects across California, including:

- Aviation Infrastructure
- Highways and Transportation
- Ports and Marine Facilities
- Rail and Transit Systems
- Dams and Water Infrastructure
- Roadways, Streets,& Complete Street Improvement
- Underground Utilities
- Landscape, Streetscape, and Park Development
- Environmental Remediation and Site Development

DELIVERY & TEAMING

Construction Execution I Prime or major civil subcontractor; specialty self-perform packages; integration with operating facilities and phased construction.
Design/ Pre-Construction I Design-build, progressive design-build and CM/GC experience; construction phasing, utility coordination, estimates, and value engineering.

FEDERAL MARKET VALUE PROPOSITION

We offer extensive self-perform capabilities across a broad range of heavy civil construction disciplines, providing greater control over project schedule, quality, safety, and execution.

- Site Concrete
- Paving
- Earthwork
- Structures
- Underground Utilities
- Vertical Construction
- Landscape & Irrigation
- Materials Production & Recycling
- Environmental Services
- Demolition & Site Preparation
- Alternative Project Delivery

LEADERSHIP & ADVOCACY

At Griffith Company, leadership extends beyond the projects we build to the industry and communities we serve. President Ryan Aukerman serves as the 2026 President of the Associated General Contractors of California, reinforcing Griffith's commitment to industry leadership and service. We invest in the next generation of construction professionals by hosting 20+ interns from universities throughout California and remain actively engaged in AEC organizations, including the Society of American Military Engineers Los Angeles, Orange County, and San Diego Posts.

KEY DIFFERENTIATORS

- General engineering contractor providing services to private and public sector clients on projects throughout Southern California
- Experience with Other Transactional Authorities (OTAs) and Progressive Design Build (PDB)
- Industry-leading project management, and specialized crews enable project delivery for our customers – on time and on budget

CLIENTS

WHY PARTNER WITH GRIFFITH?

For Federal Primes I Multi-trade self-perform teams; local field resources; major civil package integration; proven work amid traffic, aircraft, rail and facility operations.

For A/E & Design-Build Teams I Construction input before design completion; civil means/methods; estimating, site access and phasing; early identification of utility and interface risks.
