

**GRIFFITH
COMPANY**

La Bonita Park

Location: La Habra, CA
Owner: City of La Habra

Total Value: \$5.3 mil
Completed: 2006

The City of La Habra contracted with Griffith Company to renovate this 22 acre park, the home to the Girl Scouts and the Boys and Girls Club. Our crews graded the park to construct four new lighted softball fields and a large multipurpose open field. The new development included incorporating a grove of mature trees with a winding, landscaped trail that follows the existing stream bed. We installed detailed, contoured grading and

bioswales to treat the storm water runoff in the park as it fed into a new water retention basin.

To enhance the user experience we constructed new state of the art, cobblestone-faced concession and restroom facilities, constructed a concrete skate park, provided numerous picnic features and installed new playground facilities. New irrigation and lighting was installed throughout the park along with centralized computer controls.

Griffith Company is proud to once again put our stamp on the community by providing a full-service park where the public can spend its time playing sports, enjoying a picnic or relaxing under the shade of an oak tree. Our expertise and construction know-how ensures that what has been constructed will be enjoyed for many years to come.
